Curriculum Proposal

CURRICULUM REVISION

Attach a copy of the new and old curricula to this sheet as well as any new course or course revisions required as part of this curriculum revision. Use a two column format comparing the old and new curricula.

1. Name of Department: Health Education Department
2. Name of old curriculum: Community Health Education
3. Name of new curriculum: Community Health Education
4. Degree to be granted: A.S. Community Health Education
5. Semester curriculum revision will first be effective: Fall 2020
6. Estimated enrollment in curriculum (number of students estimated to begin this curriculum per academic year): 60
7. Will this curriculum revision require special materials, equipment or space that were not required for the old curriculum? ☐ Yes ☑ No If yes, attach an explanation.
8. Number of new courses: 2
9. Number of old courses being dropped: 0
10. Number of course revisions required as part of this revision: 0

****

Signatures

1. Department Chairperson or Program Director — Date: 11/27/19
2. Scheduling Officer (Advised as to Course Code) — Date: 11/25/19
3. Dean of Academic Affairs (Advised as to format) — Date: 11/27/19
4. Chairperson of Curriculum Committee — Date:

Health Education Department

Departmental Meeting
November 13, 2019

Present: Chairperson Rennis, Professors DeFillippo, Evangelista, Grace, McGee, McNamara, Shneyderman
Absent: Professors Belcastro, Hansen

Minutes of the September department meeting were approved.

New Business:

- Review of HED Events held this semester – Jane Young Film Festival, 5k Fun Run/Walk, Health Professions Career Panel.
- Advisement Status – As of today 75 HED students have come to the department for advisement. Professors Rennis and McNamara met with the following departments regarding advisement of their HED students: ASAP, BMCC Learning Academy and College Now.
- Reminder to faculty to vote on the PSC CUNY contract by November 26th.
- Basic Skills Guidelines are changing CUNY wide starting in Spring 2020. HED Faculty voted to approve the college applying the appropriate proficiency index to all HED courses requiring basic skills prerequisites.
- HED Committees split into group work from 2:40pm to 3:10pm.
- Student Affairs:
    - HED Promotion video is being worked on.
    - Committee is trying to enhance HED Club membership.
- HED Transfer Workshop will be held on November 20th from 2pm-4pm in Room N780.
- The APR site visit will be in December before the winter break.
- HED faculty voted to approve a curriculum revision to the Community Health Education major to include the following focus areas: Health Education and Promotion, Food Studies, Exercise Science, and Health Services Administration. This act requires two new courses (Nutrition across the Lifespan, and Global Nutrition and Disease) which the faculty also approved.

Respectfully submitted by,
Margaret Eisenberg

11/9/2019

Good morning,

As a follow up to our prior discussions, I wish to express my support for your current AS degree proposal for Community Health Education, Health Services Administration concentration.

The department of Health Sciences currently offers a BS in Health Services Administration to individuals who possess either a clinical license or have work experience in a healthcare facility. We too are in the process of submitting a new '+2' BS in Healthcare Policy and Management to this school's Curriculum Committee. From amongst our degrees, this would most likely be the best option for your students.

Since both of our proposals are within curriculum review and approval phases, they may 'go live' at the same time, However, having Community Health students from other CUNY colleges in our current HSA degree should allow us to accommodate your students using that degree if necessary.

I will of course, review this with our faculty. From past experience with similar degrees, I anticipate that the 60 credits from your AS degree will be compatible within each degree's academics. During their time with us, students would need to complete any unfulfilled Pathways general education requirements, BS discipline & liberal arts requirements and any needed discipline approved electives to achieve their required 120 credits.

Once your proposal is approved, kindly relay the degree particulars to my attention.

Best wishes,

Josef Bohm DC, MPH

Dear Dr. Rennis,

On behalf of the Department of Health Sciences at Lehman College, this letter expresses my support for BMCC's Department of Health Education in its proposal to develop new focus areas for the Community Health A.S. degree program.

The Department of Health Sciences' Health Education and Promotion (HEA) Program has a robust articulation agreement currently in place with your department which draws a number of your students to Lehman to major in HEA and explore majors within our department's six other programs: Dietetics, Foods, and Nutrition, Health Services Administration, Exercise Science, Recreation Education, and Therapeutic Recreation.

The changes in your proposal include a number of courses that have been approved for our existing articulation. While the proposed new courses would need to be reviewed and approved by my colleagues, I can say with a good deal of confidence that we could accept these as departmental electives.

I hope that any changes we make on our end only enhance our ongoing collaboration and your department's curricular development efforts to meet the needs of your students and the communities they will work in.

If I can provide anything further, feel free to contact me at 347-577-4034 or danna.ethan@lehman.cuny.edu.

Sincerely,

Danna Ethan
