

Minutes from Academic Freedom Committee, December 4, 2019
Prepared by Professor Clock

- I. We discussed research on tape-recording of class lectures.
- II. We discussed a specific case that was brought to us; it has been settled.
- III. We are going to examine BMCC policy on tape-recording of lectures.
 - A. To start, we are recommending that the Accessibility Office should handle tape-recording via the note-taker. This should be policy until further study and further recommendations.
 - B. Perhaps an Ad-Hoc Academic Senate Committee can study this issue?
 1. Is this of interest to the faculty?
 2. Is this an Academic Freedom issue? Instructional issue?
 3. We will lay out the basic legal information for the Academic Senate and discuss further at our February meeting.

Respectfully submitted,
Professor Clock, 12/4/19
