

November Monthly Meeting 11/6/19
Danison, Justo, Powell, Tulloch, present

Meeting called to order at 2:10pm
General conversation:

- how can we be useful? what is the point of doing this without having any type of evidence?
 - maybe we should talk to the admissions people about documenting problems and issues and then move from there
 - not saying the system is broken but we have to be able to deal with any issues that come up
 - figuring out language of email to not overburden the office
 - we don't want to appear as threatening to them, make sure we play politics and be very diplomatic, to provide relief and help in the greater senate body
- is there a way to engage other departments---> drafting a letter to send to the other departments engaging them and asking if there are specific issues for their department that need to be reported out to greater body

Meeting adjourned at 300pm
