CAREER PATHWAYS

BMCC Continuing Education offers a series of career pathway programs that enables individuals to secure a job or advance in a demand industry or occupation. Examples of our Pathway Programs are:

- Medical Assistant Specialist (MAS)
- Computer Network Support Specialist
- Electronic Health Record

These pathway programs lead to an associate degree while students are employed in high demand fields.

The aim is to ease and facilitate students' transition from pre-college courses to community college and credited post-secondary programs and from community college to university or employment. To learn more please visit our website at **www.bmcc.cuny.edu/ce**.

BMCC
BOROUGH OF MANHATTAN
COMMUNITY COLLEGE

MESSAGE FROM PRESIDENT ANTHONY E. MUNROE

Borough of Manhattan Community College is here to support you in the pursuit of your personal and professional goals.

The BMCC Center for Continuing Education and Workforce Development provides cutting-edge technology, hands-on experience, partnerships with local businesses and industry, and engaging classroom experiences designed to help you succeed.

Hard work is only one important part of building a better future for yourself. Learning new skills can make it easier to get more work done and do a better job overall. By taking advantage of the courses and services offered by the Center, you will find ways to grow your income, develop better networking skills, expand your professional interests, and climb the career ladder.

You can earn valuable credentials, upgrade your skills, and increase your earning potential. Whether you are looking for a pathway to an associate degree or professional development that leads to improved career opportunities, our staff and instructors are here to welcome and inspire you.

Invest in yourself and find your path to a bright future. I wish you much success in your educational journey!

ANTHONY E. MUNROE
President, Borough of Manhattan Community College, CUNY

BMCC'S ADULT CONTINUING EDUCATION & WORKFORCE DEVELOPMENT MISSION STATEMENT

To excel as a leading innovator in Continuing Education and Workforce Development with high quality programs that align with BMCC's strategic goals and prepare students for degree completion, career achievement, and lifelong learning through discovery and innovation, and social and workforce skills. Adult Continuing Education commits to student success and community enrichment by providing accessible, equitable, and innovative quality education to diverse adult learners, youth, and non-traditional students in pursuit of lifelong learning, training, career advancement, and pathways to college.

MESSAGE FROM ACTING ASSISTANT VICE PRESIDENT TERRY T. KIDD, Ph.D.

Welcome to the Center of Adult & Continuing Education (ACE), where lifelong learning, career preparation, and holistic student development is at the core of everything we do. We, in ACE, are a division of Borough of Manhattan Community College dedicated to bringing you high quality, high growth, high wage and high demand programs that meet your precollege, career development, and employment needs.

We offer world-class faculty and instructors with a global network to engage you in and out of the classroom. With flexible programming, we are dedicated to helping you make continuing education a priority, no matter your lifestyle. Make BMCC's Adult and Continuing Education tradition of academic excellence part of your journey.

Explore Your Opportunities and transform your life. Start Here and Go Anywhere!

TERRY T. KIDD, Ph.D.
Acting Assistant Vice President
Workforce Development and Continuing Education

ALLIED HEALTH

Allied health is one of the highest growing job sectors in the nation. As an allied health practitioner, you will work collaboratively with other providers, including physicians, nurses, dentists, and pharmacists. You may play a role in evaluating and assessing a patient's needs, keeping physicians and others informed of the patient's progress, and caring for the patient. Allied health practitioners may work independently as specialists in exercise, nutrition, paramedicine, health education, speech, and daily function.

MEDICAL ASSISTANT SPECIALIST (MAS)

All interested applicants are required to register for and attend an Information Session held every Monday at 6:00 pm.

The Medical Assistant Specialist course at BMCC is an exemplary program that graduates highly qualified individuals. This course prepares students to handle a wide variety of tasks in a hospital, clinic, or private medical practice environment; tasks range from taking vital signs to scheduling patient appointments. Training covers a spectrum of administrative tasks as well as patient care procedures. Students who successfully complete both in-class instruction and the experiential learning component are eligible for the NHA Certification Exam. Textbooks, Professional Liability Insurance, and NHA exam fee are not included in tuition.

123 Sessions // 531 hours // $4,300

Mon & Wed: 6:00 pm – 9:00 pm and
Sat: 9:00 am – 5:00 pm

ELECTRONIC HEALTH RECORDS WITH BILLING AND CODING

An electronic health record (EHR) is a systematic collection of electronic health information about individual patients or populations. Information is recorded in a digital format that is capable of being shared across different health care settings by being embedded in network-connected enterprise-wide information systems. Such records may include a range of data in comprehensive or summary form, including demographics, medical history, medication, allergies, immunization status, laboratory test results, radiology images, vital signs, and billing information. (70 hours)

In addition to EHR, the billing and coding component will cover Medical Word Structure, Basic Anatomy and Physiology, HIPAA Compliance, CMS-1500 Claim Form, ICD-10-CM, and CPT-4 Guidelines. The following areas focus on CPT-4: Evaluation and Management, specialty fields (such as surgery, radiology, and laboratory), and ICD-10-CM. Basic claims processes for medical insurance and third-party reimbursements are also discussed. Students will learn how to find the proper procedure and diagnosis codes using manuals CPT-4 and ICD-10-CM.

***EHR—24 Sessions // *MB & C — 14 Sessions // 112 hours // $1,200**

Mon & Wed: 6:00 pm – 9:00 pm

* Note: the last session of EHR and MB & C is 1 hour.

INTRO TO SPANISH FOR HEALTHCARE PROFESSIONALS

This basic Spanish course teaches healthcare professionals how to effectively communicate in Spanish while enjoying the language learning experience. This course teaches introductory oral and written Spanish skills through use of role-plays, audio tutorials, written and oral exercises, and homework assignments. In this course you will learn how to introduce yourself to colleagues, effectively make an appointment, acquire family medical history, and identify parts of the body, along with other healthcare-specific vocabulary.

8 Sessions // 24 hours // $350

Visit our website for upcoming dates.

Do I need to attend an information session/open house?

Information sessions are mandatory for the following courses:

Medical Assistant Specialist (MAS); Hemodialysis Technician Training; Direct Support Professional; Information Technology; as well as Professional Development programs.

Please check the course description for requirements.

HEMODIALYSIS TECHNICIAN

All interested applicants must attend a required info session.

This course prepares individuals to become part of a professional health care team that provides hemodialysis treatment due to end-stage renal failure. Students will learn anatomy and physiology of the kidneys, common causes of End-Stage Renal Disease, principles of Hemodialysis procedure, treatment options, and commonly used Hemodialysis terms and abbreviations. Additionally, students will gain practical experience in machine set-up, operation and monitoring, vascular access, cannulation techniques, medical and technical complications, infection control, medications, patient assessment, and nutritional and social needs of End-Stage Renal Disease patients. The program includes a 4-hour Preparation Course for the National CCHT Certification Exam. Upon successful completion of the program, students are eligible to sit for the CCHT national exam.

Textbook and scrubs not included.

24 Sessions // 100 hours // $2,210

100 hours plus 7 hour BCLS course

Day and Evening classes available; please see website for schedule.

NEW! HYBRID HEMODIALYSIS TECHNICIAN & NURSE TRAINING

BMCC in partnership with Dialysis4Career has modified our Hemodialysis Training to include both BMCC instructor-led virtual lessons and in-person clinical.

- All virtual classes will be led by a BMCC instructor.
- In-person clinical
- Upon successful completion, students will be job ready.
- 4-hour National prep review is included in the course.

The course is designed to cover the anatomy and physiology of the kidneys, common causes of End-Stage Renal Disease, principles of hemodialysis procedure, treatment options, commonly used hemodialysis terms and abbreviations, patient assessment, nutritional and social needs of End-Stage Renal Disease patients, vascular access, cannulation techniques, infection control, medication, and medical and technical complications.

- Tuition fee does not include the Certification Exam.
- Upon successful completion of the course, participants will have gained core competencies to work in the Hemodialysis field.
- National Technician Exam Review is included in this course. Students who successfully complete the course are eligible to apply to take the National CCHT Certification Exam.

100 hours // $2,210

* 60 hours virtual and 40 hours in-person clinical

Tues & Thurs: 6:00 pm – 9:00 pm
July 9 – October 29, 2024

Tues & Thurs: 10:00 am – 2:00 pm
August 6 – October 29, 2024

80% scholarship for eligible applicants. Limited Seats.

DIALYSIS BIOMEDICAL EQUIPMENT TECHNICIAN ✻COMING SOON✻

All interested applicants must attend a required info session.

A Dialysis Biomedical Equipment Technician oversees and maintains all dialysis-related equipment in both the acute unit and the ambulatory outpatient dialysis unit. A Dialysis Biomedical Equipment Technician also repairs and performs preventative maintenance to ensure all systems are running properly. To become a technician, students need to earn a certificate from an approved licensed training program.

In the Dialysis Biomedical Equipment Technician Program, you will learn to operate, repair, maintain, and clean the hemodialysis machines while also gaining practice in performing hemodialysis procedures. Proper procedures, strict guidelines, and regulations will be followed. This is essential in helping the facility meet high standards so that patients can have a safe and comfortable treatment.

A certificate of completion is awarded to students who successfully complete the course.

EMERGENCY MEDICAL TECHNICIAN PARAMEDIC PRACTICAL SKILLS EXAMINATION

Prerequisite: Must have completed an Emergency Medical Technician Paramedic course and obtain prior approval.

This skills session meets the requirements for both an original NREMT and New York State original Paramedic Psychomotor Exam. Upon successful completion of skills testing, students will be eligible to complete the Emergency Medical Technician Paramedic written certifying examination as per their State and National regulations.

Visit our website for upcoming dates.

MEDICAL BILLING & CODING (MBC)

This course offers students the skills needed to process and solve insurance billing problems. Students learn basic claim procedures for medical insurance and third party reimbursements by understanding how to manually complete common insurance forms through use of service codes and manuals. Students will also learn how to trace delinquent claims, appeal denied claims, and use generic forms to streamline billing procedures.

Textbooks and NHA Exam fee are not included in the tuition.

40 Sessions // 120 hours // $2,200

Tues & Thurs: 6:00 pm – 9:00 pm

20 Sessions // 120 hours // $2,200

Sat: 9:30 am – 3:30 pm
Visit our website for upcoming dates.

INTRAVENOUS THERAPY

This course provides participants with comprehensive knowledge of intravenous tools and techniques, as well as the understanding of theory and methodology. The Intravenous Therapy curriculum was approved by American Nurses Credentialing Center's Commission on Accreditation for 15.3 contact hours. A discount is available for BMCC nursing students.

Location: Main Campus, 199 Chambers Street

2 Sessions // 17 hours // $245

July 1 & 2, 2024
August 5 & 6, 2024

RN FIRST ASSISTANT

The NIFA RNFA Program meets all national AORN standards for RN First Assistant (RNFA) education programs and is accepted by the Competency & Credentialing Institute (CCI) and National Assistant at Surgery Certification. The curriculum is recognized by all 50 state nursing boards and is intended to enhance the perioperative nurse knowledge base and skills necessary to pursue the position of an RNFA in surgery. Effective June 8, 2016, the State of New York enacted a bill requiring private payers in the state of New York to reimburse RNFAs. Successful graduates will receive a BMCC Certificate of Completion and CEs. Course 1 consists of 48 hours of online coursework to be completed within one year of enrollment. Course 2 consists of a supervised clinical internship of 140 hours of assisting experience and Procedure Log to be completed within one year of the clinical internship start date (extensions may be considered during Covid and other natural disasters).

Prerequisite: Must hold a BSN or higher, a minimum of 2 years and 2,400 hours of perioperative experience (waived for NP) and must submit proof of CNOR (waived for NP) prior to completion of the program.

Tuition: $3,695 – $6,995 depending on student needs.

For further details visit website: www.rnfa.org or call NIFA at 1.800.922.7747
Mon – Thurs: 8:00 am – 4:00 pm
(Fridays close at 3:00 pm) MST
email: admissions@NIFA.com

BASIC EKG & PHLEBOTOMY FOR HEALTH PROFESSIONALS

This course is designed for current Allied Health Professionals and Clinical Research Coordinators to learn how to perform EKGs and Phlebotomy on patients under the supervision of a Medical Professional. Students will learn Phlebotomy and be able to collect and prepare blood and other specimen collections ordered by a licensed Health Provider. This course teaches both skill competencies to make health professionals more marketable within the health care field. Upon successful completion of the program, students will receive a Certificate of Completion. This class does not qualify you to sit for the National Certification exams.

* Note: All hands-on skills will be done using simulation manikins.

14 Sessions // 40 hours // $550
Last session will only be 1 hour long.

Mon & Thurs: 5:00 pm – 8:00 pm
August 5 – September 23, 2024

Course is held at Bellevue Hospital SIMMS LAB.

INTRODUCTION TO VITAL SIGNS

Introduction to Vital Signs training includes monitoring temperature, pulse, respiration, blood pressure, and pain assessment. All materials are provided. Stethoscopes are provided but students are encouraged to bring their own. Students who successfully complete this course will receive a completion certificate from the BMCC/CUNY Continuing Education department. Upon registration, class materials will be emailed to all students.

1 Session // 4 hours // $150

September 26, 2024

CENTRAL STERILE PROCESSING PROGRAM ✻COMING SOON✻

This 16-week Sterile Processing Technician Certificate Program is designed to present the basic concepts and principles for developing skills and competencies required for infection prevention and control in the sterile processing department in a health care facility. This course will offer knowledge in cleaning, disinfecting, decontamination, sterilization, Standard precautions, and Universal precautions. The 8-week lab portion will allow the student to practice the theory offered in lecture. The 8-week clinical portion will allow the student to gain experience in the hospital setting arrangements made through BMCC's healthcare partners.

Students served: This program is designed for allied health professionals desiring a career in sterile processing in a health care environment. The student completing this course will develop the entry-level knowledge and skills necessary to function as a Sterile Processing Technologist.

Successful completion of this program will earn students a BMCC Certificate of Completion and prepare you to sit for the Healthcare Sterile Processing Association (HSPA) Certified Registered Central Service Technician (CRCST) Examination (with Provisional Certification).

Certification – Healthcare Sterile Processing Association (myhspa.org)

* Note: HSPA requires 400 internship hours to satisfy full CRCST Certification. Students will be responsible to secure their own Internships.

16 weeks // $1,995

Mon – Thurs: 6:00 pm - 9:30 pm
August 12 – November 28, 2024

INFORMATION TECHNOLOGY FOR THE 21ST CENTURY

IT continues to be one of the fastest-growing sectors in the NYC labor market. Research shows that IT will continue to grow steadily over the next 5 years. The available jobs for middle-skilled workers will increase as will the demand for certification. The BMCC Center of Adult Continuing Education and Workforce Development brings industry professionals into the classroom to prepare students and job seekers for the workforce. Our affordable courses are career pathways that lead to high-demand occupations. Whether you are new to the field or looking to expand your skill sets, you can start here and work anywhere. Check out our courses in IT Computer Support, Networking & Cybersecurity, Programming, Data Analytics, Web Development, Linux+, Digital Media & Design, Cloud Computing, and Apple Technology.

CAREER IN IT & OFFICE SUPPORT

INTRODUCTION TO COMPUTERS (A+ CERTIFICATION)

This course prepares students for IT jobs as Computer Technical Support Specialists. You will gain hands-on experience and learn how to disassemble and reassemble computers, learn the functions of each component, install Operating Systems, and troubleshoot common hardware- and software-related problems. Whether you have knowledge of computers or not you can benefit from taking this course. This course will prepare you for more advanced topics as well as the CompTIA A+ Certification Exam (1101 & 1102) that validates your skills as an IT professional.

12 Sessions // 72 Hours // $899

Sat: 9:30 am – 4:30 pm

Upon passing an entrance exam, students can transfer up to 4 credits toward their Associate Degree in Computer Information System (CIS) at BMCC.

GOOGLE IT SUPPORT CERTIFICATE *COMING SOON*

The Google IT Support Professional Certificate introduces learners to troubleshooting, customer service, networking, operating systems, system administration, and security.

This certificate is for beginners.

11 Sessions // 66 hours

MICROSOFT OFFICE PROFESSIONAL

Prerequisite: Must have a basic knowledge of Microsoft Word, Excel, Outlook, PowerPoint, and Access

This course will give you a comprehensive look at the most frequently used features in Word, Excel, PowerPoint, Outlook and Access. Upon successful completion, you will receive a certificate validating your skills to express ideas, solve problems, and present the right solutions in the most efficient way. Isn't it time to advance your career to the next level? Sign up today!

20 Sessions // 60 hours // $699

Tues & Thurs: 6:00 pm – 9:00 pm

WORD EXCEL OUTLOOK POWERPOINT ACCESS

SOCIAL MEDIA FOR BUSINESS

Do you get overwhelmed when it comes to social media marketing for your business? Are you unsure about the best strategies to use for Facebook, Twitter, Instagram, LinkedIn, and Pinterest? Are you ready to increase your followers and engage with your audience? Want to find out how to use social media to increase exposure and increase revenue immediately?

If you answered YES to any of these questions, our Social Media course is for you! We offer: Facebook, Instagram, LinkedIn, Twitter, Pinterest and more!

13 Sessions // 78 hours // $599

Sat: 9:30 am – 4:30 pm

CAREER IN SYSTEM ADMINISTRATION & NETWORKING

INTRODUCTION TO NETWORKS — CCNA-ITN

This initial BMCC Cisco Academy Course is aligned to the CCNA Certification and introduces students to the underlying technologies that support network communications for LANs/ WANs. Students will learn communications architecture and reference models, network diagramming, protocols at layer 2 that affect device-to-device communication, and layer 3 protocols that enable local internetwork and global internetwork communications. You will learn how to cable and configure local area networks on Cisco routers and switches using various protocols at layer 2 and IPv4 / IPv6 at layer 3, as well as understand all the protocols necessary to support LAN communications.

SWITCHING, ROUTING AND WIRELESS ESSENTIALS — CCNA-SRWE

Second in a series, SRWE builds on your knowledge of network and protocol operation in small networks and introduces Wireless networking concepts, standards, and security. You'll learn how to implement VLANs, inter-VLAN routing, Spanning-Tree, EtherChannel, FHRPs, and address assignment methods for IPv4 / IPv6. Upon course completion, you will have a firm understanding of and practical hands-on experience implementing and troubleshooting IPv4 and IPv6 deployments and protocol issues as well as knowledge of layered LAN Security best practices for wired and wireless deployments.

35 Sessions // 138 hours // $1,950

Tues & Thurs: 6:00 pm – 9:00 pm and
Sat: 9:30 am – 4:30 pm

ENTERPRISE NETWORKING, SECURITY AND AUTOMATION — CCNA-ENSA

ENSA is the final course in preparation for CCNA Certification. In this course you'll learn Single-Area OSPFv2 routing and configuration, Network Security concepts, Access Control, IPSec Protocol Framework, NAT, QoS concepts, Network Design, Virtualization, and Network Automation Concepts. This course binds all the technologies learned into a cohesive skill set that will ensure you are well prepared for the CCNA Certification and confident in the skills you've attained as you embark on your career journey.

24 Sessions // 72 Hours // $1,350

Tues & Thurs: 6:00 pm - 9:00 pm

NETWORK+

Prerequisites: CompTia A+ certification or course equivalent recommended.

Knowing how to install, configure, and troubleshoot a computer network is a highly marketable and exciting skill.

This course builds on your existing knowledge and experience with personal computer operating systems and networks to present the fundamental skills and concepts that you will need to use on the job in any type of networking career.

30 sessions // 90 hours // $1,700

Tues & Thurs: 6:00 pm – 9:00 pm

LINUX+

Prerequisites: CompTIA Network+ certification or course equivalent recommended.

This course is intended for students who want to learn about the Linux operating system and prepare to pass the Linux+ certification exam from CompTIA (Powered by LPI). The course provides comprehensive coverage of topics related to Linux certification, including Linux distributions, installation, administration, X-Windows, cloud technologies, networking, and security.

30 sessions // 90 hours // $1,400

Tues & Thurs: 6:00 pm – 9:00 pm

CISCO NETWORKING ACADEMY — CCNP

The Revised CCNP Certification consists of one (1) Core Exam and numerous concentration options. BMCC is offering ENCOR (350–401) and ENARSI (300–410) as the concentration in a combined package leading to CCNP Certification. Read further for individual descriptions of the key concepts and technologies covered in each.

48 Sessions // 144 Hours // $2,880

Mon & Wed: 6:00 pm – 9:00 pm

CISCO ACADEMY — CCNP ENTERPRISE: ENCOR (CORE NETWORKING)

The ENCOR course includes implementation of core enterprise network technologies including dual stack (IPv4 and IPv6) architecture, virtualization, infrastructure, network assurance, security, and automation. Students will learn through lecture and practical hands-on labs how to implement Enterprise Networks and Supporting Services and Protocols.

This course teaches students core concepts for configuring routers and switches in the enterprise environment. Routers and switches facilitate the connection of devices, applications, and data through the internet and across other computer networks. By the end of the course, students will be able to perform advanced configurations for routers and switches in order to build and configure enterprise-level local area networks (LANs) and wide area networks (WANs) that integrate IP addressing schemes, routing and switching protocols, network assurance, and network security.

Duration: 72 hours

Required Reading: Cisco Press CCNP and CCIE Enterprise Core ENCOR 350–401 Official Cert Guide.

Prerequisite: None; Recommended: CCNA Academy CCNAv7 Completion or CCNA Certification

CISCO ACADEMY — CCNP ENTERPRISE: ENARSI (ENTERPRISE: ADVANCED ROUTING AND SERVICES)

The ENCOR course includes implementation of core enterprise network technologies including dual stack (IPv4 and IPv6) architecture, virtualization, infrastructure, network assurance, security, and automation.

This course teaches students advanced concepts for configuring routers and services in the enterprise environment. These devices and services facilitate the connection of devices, applications, and data through the internet and across other computer networks. By the end of the course, students will be able to perform advanced configurations for routers and services in order to build and configure enterprise-level local area networks (LANs) and wide area networks (WANs) that use IPv4 and IPv6 advanced routing protocols, advanced features of protocols to optimize network performance, route redistribution, and advanced tunneling technologies.

Duration: 72 hours

Required Reading: Cisco Press CCNP Enterprise Advanced Routing ENARSI 300–410 Official Cert Guide

Prerequisite: CCNP ENTERPRISE: ENCOR (Core Networking)

Check our website
www.bmcc.cuny.edu/ce for up-to-date course offerings
or call us at (212) 346-8410

CAREER IN PROGRAMMING

INTRO TO C++*

C++ is a powerful general-purpose programming language that offers both high-level and object-oriented features for software development on various platforms such as personal computers, game consoles, embedded systems, and more.

This course will cover an introduction to the C++ programming language for those students who have an interest in learning how to create video games, software applications, and operating systems. The course is designed for those with little or no programming background. Topics include data types, flow of control, classes, functions, objects, and much more.

10 Sessions // 30 hours // $599

Tues & Thurs: 6:00 pm – 9:00 pm

* Intermediate & advanced courses available. Please check our website for scheduled dates.

INTRO TO PROGRAMMING WITH JAVA*

Java is one of the most widely used computer languages in the world. This course is designed to develop the fundamental skills and basic concepts needed to begin writing any code. Students will use the Java platform to create an assortment of programs, especially mobile and web applications. Sign up today!

10 Sessions // 30 hours // $599

Tues & Thurs: 6:30 pm – 9:30 pm

* Intermediate & advanced courses available. Please check our website for scheduled dates.

BMCC ACE CODING ACADEMY

The Borough of Manhattan Community College Center for Continuing Education & Workforce Development is launching the ACE Coding Academy to give students the latest cutting-edge coding skills and training in app development with Swift. Swift is a robust and intuitive programming language created by Apple for building apps for iOS, Mac, Apple TV, and Apple Watch.

In the App Development course using Swift, students will learn to code and design fully functional apps, thereby gaining critical job skills in software development and information technology.

This course was designed by Apple engineers and educators to teach students how to design apps using Swift, one of the world's most popular programming languages. A number of popular apps like Airbnb, Kayak, TripAdvisor, Venmo, and Yelp were created with Swift. Students need no programming experience to take this course. By the end of the course, students will design and build a fully functioning app! Don't miss your opportunity to learn to code with curriculum from the company that invented Swift and defined the App Economy. Register today!

Swift Programming Is a Three-Level Course

Level 1 — Introduction to Swift: Basic proficiency in building apps with Swift (90 hours)

Level 2 — Swift for IT Professionals I: Developing Apple applications with Swift Language using Xcode as the development tool (90 hours)

Level 3 — Swift for IT Professionals II: Advanced applications using Swift and Xcode as the development tool (90 hours)

66 sessions // 270 hours // Price: $1,900

Mon & Wed: 6:00 pm – 9:00 pm
Sat: 9:30 am – 4:30 pm

To learn more visit: https://www.apple.com/everyone-can-code/

Students are required to have their own MacBook with macOS Sierra 10.12.6 or later, capable of running Xcode 9. Xcode, available as a free download on the Mac App Store, is the Integrated Developer Environment used to build apps for iOS, Mac, Apple TV, and Apple Watch.

CAREER IN DATABASE MANAGEMENT

INTRO TO STRUCTURED QUERY LANGUAGE (SQL)

Structured Query Language (SQL) is used to extract information from a relational database to address an array of business information needs. Thus, the goal of the course is to teach participants how to query a relational database for information and analysis.

This course is designed to introduce Structured Query Language (SQL) to end users:

- who need to understand how data is retrieved prior to analyzing it,
- who would like to enter the field of computer science with little or no prior knowledge of databases and/or programming languages,
- and who would like to jump-start their career with a foundation on relational databases, including Microsoft SQL Server 2017 (https://microsoft.com/en-us/sql-server/sql-server-2017).

10 Sessions // 30 hours // $699

Mon & Wed: 6:00 pm – 9:00 pm

INTERMEDIATE SQL

Prerequisite: Intro to Structured Query Language (SQL) or equivalent and Understanding Manipulation Language (UML) and Data Definition Language (DDL)

Structured Query Language (SQL) is used to extract information from a relational database to address an array of business information needs. Thus, the goal of the course is to teach participants how to query a relational database for information and analysis.

This course is designed to expand your knowledge of Structured Query Language (SQL) to end users:

- who need to understand how data is retrieved prior to analyzing it,
- who would like to enter the field of computer science with little or no prior knowledge of databases and/or programming languages,
- and who would like to jump-start their career with a foundation on relational databases, including Microsoft SQL Server 2017 (https://microsoft.com/en-us/sql-server/sql-server-2017).

10 Sessions // 30 hours // $799

Tues & Thurs: 6:00 pm – 9:00 pm

BOOTCAMPS: VIDEO EDITING | GRAPHIC DESIGN | WEB DEVELOPMENT

COMPREHENSIVE VIDEO EDITING

This course provides students with hands-on experience using Final Cut Pro in a professional capacity. Students will learn the fundamentals of video editing and how to create an efficient workflow. Some of the skills taught in this course include: how to create a proper file structure, how to build timelines, how to clean up audio, and the proper use of transitions. Additional NLEs (non-linear editors), such as Adobe Premiere and Avid Media, will be introduced to give students a holistic view of the current software used by professionals. This course is intended for those with or without video editing experience so that they may become comfortable and proficient in video editing at a professional level.

30 Sessions // 90 hours // $899

Mon & Wed: 6:30 pm – 9:00 pm and
Sat: 9:00 am – 12:00 pm

GRAPHIC DESIGN BOOTCAMP

Do you want to become a professional Graphic Designer? Then this course is for you! Students will learn how to incorporate workflow standards to projects such as: graphic manipulation, color management, motion effects, and technical drawings for print, brochures, business cards, book covers, magazine layouts and web graphics. This course will help you build your experience by applying essential skills to industry standards. This bootcamp brings experts from the field into the classroom. Sign up today!

15 sessions // 90 hours // $899

Sat: 9:30 am – 4:30 pm

WEB DEVELOPMENT BOOTCAMP

Jumpstart your career in Web Development! This course offers a real world, hands-on approach and will teach you how to become a Web Developer by applying best practices for structuring web page content with HTML. You will learn to enhance content presentations with CSS styling, and add interaction to websites with JavaScript and JQuery. In addition, you will be able to customize websites by using Responsive Web Design to detect users' screen size and deliver the content accordingly. Learn to develop mobile-optimized websites, implement mobile-first design, create mobile navigation, and enhance web pages. Sign up today!

20 Sessions // 120 Hours // $1,799

Sat: 9:30 am – 4:30 pm

CAREER IN DATA SCIENCE

INTRO TO PYTHON

Prerequisite:

- *Basic computer skills using MS Windows, Mac, or Linux.*
- *A basic foundation of how software applications are designed and coded.*
- *An algebra level understanding of mathematics.*
- *Some academic or industry experience with some high level programming language such as Java, C# or C/C++ would be useful, but is not required.*

The Python programming language has a reputation for being easy to learn and very powerful. Its ease-of-use, power, and run-time efficiency make Python a high-ranking favored programming language in the software development community. As a result, Python developers are in high demand! This course introduces the Python programming language through study and hands-on practice. You will learn Python's syntax, and how to harness its power to build non-trivial applications that have value and are fun to code.

*Note: This course covers the material (i.e., course-work) required to pass the Certified Entry-Level Python Exam: https://pythoninstitute.org/pcep and builds the foundation for what's required to pass the Certified Associate in Python Programming Exam: https://pythoninstitute.org/pcap.

12 Sessions // 36 hours // $1,295

Tues & Thurs: 6:00 pm – 9:00 pm

ADVANCED PYTHON

Continue your Python Programming journey by working with Files and Strings, Reading and Exceptions Handling, Building Modules and organizing them into Packages; you will build understanding of Classes and Object-Oriented Programming with concepts such as Encapsulation, Inheritance, and Polymorphism; you will learn about data structures such as dictionaries, sets, stacks, and queues; you will write Search and Sort algorithms while measuring their speed and efficiency. You'll use your Advanced Python Programming skills to build an object-oriented application that works with persistent data, data structures, and an efficient algorithm.

20 Sessions // 60 hours // $1,400

Fri: 7:30 pm – 10:30 pm and
Sat: 9:30 am – 12:30 pm

PYTHON DATA ANALYSIS

Prerequisite: Intro to Python, and Advanced Python

Become a Data Analyst by learning to consolidate data, detect patterns, and conclude and communicate implicit results. You'll work with Python Data Analysis Libraries (Numpy, Pandas, Matplotlib) to manipulate, prepare, and visualize data.

16 Sessions // 48 hours // $1,600

Fri: 7:30 pm – 10:30 pm and
Sat: 9:30 am – 12:30 pm

ONLINE TECHNOLOGY INFORMATION SESSION

Join us and discover our Technology Training programs at BMCC Center for Continuing Education!

Technology Information Sessions offer future students the opportunity to explore our campus, ask questions, and understand the distinct program offerings available at the Center.

Sign up for free at www.bmcc.cuny.edu/ce.

MACHINE LEARNING OPERATIONS

Prerequisite : Students should have a strong grasp of basic IT and data fundamentals.

Machine Learning Operations (MLOps) borrows from Development and Operations (DevOps) principles to successfully take machine learning models to production. By the end of this course, students will have a strong foundation in Machine Learning Operations (MLOps) and the skills that are necessary to build and deploy Machine Learning models in real-world settings.

40 Sessions // 80 hours // $899

CAREER IN IT CYBER SECURITY

SECURITY+

Prerequisites: CompTia A+ certification or course equivalent recommended.

This course will focus on network security, operational security, threats and vulnerabilities, host security, access control, and cryptography.

This course offers a comprehensive guide for anyone wishing to take the CompTIA Security+ Certification Exam. It introduces the fundamentals of network security, including compliance and operational security; threats and vulnerabilities; application, data, and host security; access control and identity management; and cryptography.

30 sessions // 90 hours // $1,700

Mon & Wed: 6:00 pm – 9:00 pm

PALO ALTO NETWORKS CYBERSECURITY ACADEMY

BMCC's Center for Continuing Education and Workforce Development is excited to announce our affiliation partnership with Palo Alto Networks as a New Palo Alto Cybersecurity Academy. A leader in Global Cybersecurity Palo Alto Networks is the #1 firewall appliance manufacturer and distributor in the world. The Palo Alto Networks Cybersecurity Academy offers comprehensive courses and technology to address the educational needs of academic learning institutions across the globe. Our Cybersecurity Academy will offer a comprehensive set of technical and academic business courses.

Palo Alto Networks Cybersecurity Academy Curriculum is aligned with the U.S. National Initiative for Cybersecurity Education (NICE) Framework, and prepares students for certification and for various technical and management cybersecurity roles including:

- Network Operations Specialist
- Systems Security Analyst
- Cyber Defense Analyst
- Security Architect
- Risk Manager
- Executive Cyber Leadership

PALO ALTO NETWORKS – CLOUD SECURITY FUNDAMENTALS

This course has been designed for those interested in gaining the skills and knowledge associated with securing the cloud. Students will also be introduced to DevSecOps and how to secure SaaS-based applications through Secure Access Service Edge architecture. Like all Cybersecurity professionals, students will learn how to identify concepts required to recognize and potentially mitigate attacks against hybrid cloud architecture and mission critical infrastructure.

20 Sessions // 40 hours // $800

Tues & Thurs: 7:00 pm – 9:00 pm

PALO ALTO NETWORKS – NETWORK SECURITY FUNDAMENTALS

Students will gain an understanding of the fundamental tenets of network security, and review the general concepts involved in maintaining a secure network computing enviroment. Upon completion of the course, students will be able to implement basic network security configuration techniques. Students will gain hands-on experience with:

- Palo Alto Networks STRATA
- User – ID
- Content – ID
- and more

30 Sessions // 60 hours // $1,100

Mon & Wed: 7:00 pm – 9:00 pm

CAREER IN CLOUD COMPUTING

Borough of Manhattan Community College Center for Continuing Education has joined the Amazon Web Services (AWS) Academy program to offer approved AWS training curricula to our students. Courses are taught by AWS Academy Accredited Instructors, who are trained by AWS to help students become proficient in AWS cloud services technology.

aws academy
Member Institution

Amazon Web Services (AWS) is a secure cloud services platform that offers computing power, database storage, content delivery, and other functionality to aid businesses to scale and grow. Discover a multitude of applications that increase flexibility, scalability, and reliability.

AWS ACADEMY CLOUD FOUNDATIONS

This course provides a detailed overview of cloud computing concepts, AWS core services, security, architecture, pricing, and support. This course is designed to help students develop new skills and apply this knowledge to their working environment through a variety of practical exercises. This is an entry-level course and will prepare students for the AWS Academy Cloud Computing Architecture course.

Prerequisites: General IT technical knowledge; General IT business knowledge.

12 Sessions // 36 hours // $499

Tues & Thurs: 6:00 pm – 9:00 pm

AWS ACADEMY CLOUD ARCHITECTING

This course uses an AWS Academy curriculum designed to help students develop technical expertise in cloud computing and prepare them for the AWS Certified Solutions Architect-Associate certification exam.

This course is intended for Undergraduate, Graduate or Professional students seeking cloud-computing expertise. To learn more, sign up today!

Prerequisites: The ideal student should have a strong foundation in IT concepts and skills. Students should have completed AWS Academy Cloud Foundations.

40 Sessions // 80 hours // $1,299

Tues & Thurs: 7:00 pm – 9:00 pm

AZ-500 MICROSOFT AZURE SECURITY TECHNOLOGIES

This course teaches IT Professionals how to manage their security posture across Azure and within their cloud and on-prem solutions. The course covers an end-to-end look at each of the security tools, how to deploy and configure them, and what scenarios they are primarily used for. The security engineer will configure security settings, manage secure identities, build and administer firewalls, configure access policies, and monitor the solution.

Upon completion of this course, students will be able to:

- Secure identities with Azure Active Directory and users and groups.
- Deploy and maintain identity protection and privileged identity in Microsoft Azure.
- Configure and manage network and perimeter security solutions to protect their Azure environment.
- Analyze their security with Microsoft Sentinel.
- Manage the security of any hosts and containers running in their environment.
- Configure Azure Monitor and Microsoft Defender for Clouds to protect and monitor security operations.

And more!

*This course is directly mapped to and supports learning for the AZ 500 Microsoft Security Engineer certification exam.

CAREER TRAINING & PROFESSIONAL DEVELOPMENT

Professional Development focuses on career enhancement and functional marketplace expertise through the development of project management, project planning and control leadership skills, business writing fluency, the acquisition of notary public license, and increased knowledge and proficiency in QuickBooks.

NEW! BASIC ACCOUNTING WITH QUICKBOOKS ONLINE (QBO)

Companies and businesses are now using QuickBooks Online (QBO); the desktop version is being phased out. Learn this new online version while learning basic accounting principles with professor Clive Nair from BMCC's accounting department.

This course will introduce students to the basic concepts of accounting techniques needed to fully utilize QuickBooks for bookkeeping and accounting purposes. It covers cash and accrual-based accounting transactions, chart of accounts, different types of business entities, financial report preparation, and use of journals and ledgers for double entry accounting. The course integrates hands-on usage of QuickBooks with bookkeeping lectures to help students gain a full understanding of the material.

You will receive access to the online software for free as part of this class. There is also a textbook required; details upon registration.

12 Sessions // 36 hours // $275

Visit our website for upcoming dates.

NOTARY PUBLIC COURSE

Explore a new pathway and gain a valuable credential: "Notary Public License." This class introduces students to the basics of what a notary does. You will learn the terminology and work with samples of legal documents, such as deeds, mortgages and powers of attorney. Students will develop the skills to be prepared for the New York State Notary Public License exam, which is valid for 4 years.

2 Sessions // 6 hours // $125

Visit our website for upcoming dates.

MODERN LANGUAGE

INTRO TO SPANISH

Introduction to Spanish is designed to provide students with a solid understanding of the Spanish language. Special emphasis will be placed on vocabulary and oral expression within a cultural context. Principles of grammar will be introduced as students become more familiar with the language. Activities include role-playing and use of interactive situations. Audio files, magazine articles, and literary texts will be used in class.

8 sessions // 24 hours // $250

INTERMEDIATE SPANISH

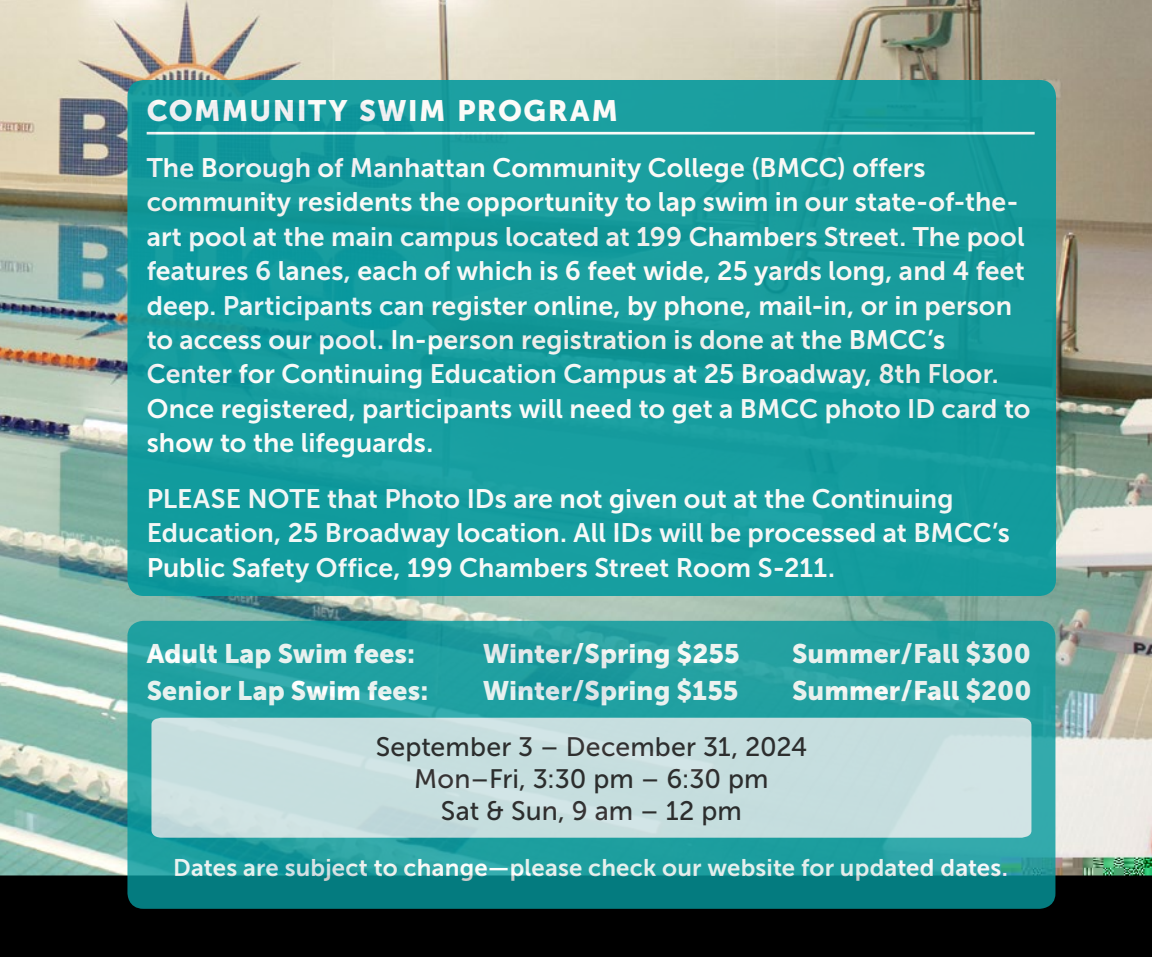
This course is designed to review previously acquired concepts, introduce more complex grammatical structures, and increase listening and reading comprehension. Students will be encouraged to speak and interact in a natural low-anxiety environment. Grammar and vocabulary are taught within a cultural context through everyday situations. Exercises are conceived to enrich reading comprehension and expand communication skills. Audio, magazine articles, and literary texts will be used in class.

8 Sessions // 24 hours // $250

CONVERSATIONAL SPANISH & CULTURE

Conversational Spanish and Culture is an intermediate to advanced course designed to improve communication skills. The curriculum aims to develop fluency in speaking while expanding vocabulary and grammatical structures. Students will explore several aspects of life and culture through newspaper articles, interactive situations, music, literature, and film. This course is designed for those who can speak Spanish at an Intermediate level or above.

8 Sessions // 24 hours // $250



COMMUNITY SWIM PROGRAM

The Borough of Manhattan Community College (BMCC) offers community residents the opportunity to lap swim in our state-of-the-art pool at the main campus located at 199 Chambers Street. The pool features 6 lanes, each of which is 6 feet wide, 25 yards long, and 4 feet deep. Participants can register online, by phone, mail-in, or in person to access our pool. In-person registration is done at the BMCC's Center for Continuing Education Campus at 25 Broadway, 8th Floor. Once registered, participants will need to get a BMCC photo ID card to show to the lifeguards.

PLEASE NOTE that Photo IDs are not given out at the Continuing Education, 25 Broadway location. All IDs will be processed at BMCC's Public Safety Office, 199 Chambers Street Room S-211.

Adult Lap Swim fees:	**Winter/Spring $255**	**Summer/Fall $300**
Senior Lap Swim fees:	**Winter/Spring $155**	**Summer/Fall $200**

September 3 – December 31, 2024
Mon–Fri, 3:30 pm – 6:30 pm
Sat & Sun, 9 am – 12 pm

Dates are subject to change—please check our website for updated dates.

CANNABIS CULTIVATION SPECIALIST ✻ONLINE✻

Get empowered with the knowledge and skills needed to become a respected and in-demand cannabis cultivation professional. Our 9-week online certificate program offers a comprehensive understanding of the cannabis industry and cultivation best practices. The program features a diverse range of learning resources, including engaging video lectures, informative readings, and interactive e-learning modules that equip you with the requisite skills and knowledge to excel in the thriving cannabis cultivation industry. Upon completion, you'll have the credibility and knowledge necessary to establish a successful career in cannabis cultivation, work in indoor or outdoor grow operations, or even launch your own cultivation business.

Payment Plan Available // $750

CANNABIS RETAIL SPECIALIST ✻ONLINE✻

Get equipped with the knowledge and skills needed to become a successful, in-demand cannabis retail professional. Delivered through a blend of engaging video lectures, comprehensive readings, and interactive e-learning modules, our 9-week online certificate program is exclusively taught by distinguished industry experts and operators. This program is designed to equip you with the fundamental knowledge of the cannabis supply chain, as well as the essential skills to succeed in the dynamic cannabis retail environment.

Payment Plan Available // $750

CANNABIS EXTRACTION AND PRODUCT DEVELOPMENT SPECIALIST ✻ONLINE✻

Get the knowledge and credibility needed to pursue a career in cannabis extraction, developing and manufacturing cannabis products, or even starting your own cannabis brand. Our 9-week online certificate program, aims to empower you with the knowledge and skills necessary to become a highly-regarded and sought-after cannabis professional. With a focus on developing and manufacturing various cannabis products, including edibles, tinctures, and topicals, this program provides a comprehensive understanding of the cannabis supply chain and foundational skills required to excel in the industry.

Payment Plan Available // $750

For more information, visit https://cannabiz.bmcc.cuny.edu

WEATHER CLOSING POLICY

BMCC is occasionally closed due to extreme weather conditions. In the event of a blizzard or other hazardous weather conditions, please tune to 1010 WINS AM radio notification, NY1 television, the college website for a formal college closure announcement, or call (212) 346-8410.

STATEMENT OF NON-DISCRIMINATION

Borough of Manhattan Community College, The City University of New York (CUNY) is committed to providing equal opportunity to all persons without regard to race, color, religion, national or ethnic origin, age, gender, sexual orientation, transgender, disability, genetic redisposition or carrier status, alienage or citizenship, status as victim of domestic violence, or marital, military, or veteran status. It is a violation of this policy for any member of the college community to engage in discrimination or to retaliate against a member of the community for raising an allegation of discrimination, filing a complaint alleging discrimination or for participating in any proceeding to determine whether discrimination has occurred. For details and complete Information, go to: http://www.bmcc.cuny.edu/academics.

RETAKE POLICY

BMCC ACE is under no obligation to allow students currently enrolled to retake ACE courses. However, consideration will be given to student requests on a case-by-case basis. Should such a request be granted, the following conditions will apply subject to further restrictions:

Repeating Classes for Students Enrolled in Certificate Programs:

- Students cannot request to re-take a course in which they have earned a grade of C or better.
- If the student has not completed the course with a grade of D or better and the course/grade is necessary to satisfy the certificate requirements, the course may be repeated once at the discretion of the College.
- If approved, retakes will be subject to the availability of the next class and confirmed student enrollment.
- If a student is unable to complete or has to drop a course, students are obligated to state in writing the reason and send the statement to the attention of BMCC's ACE Bursar.
- Students dropping the course must pay off the remaining balance due to Continuing Education before attempting to register for a retake course.
- With all retakes, there is a registration fee of $25.00 in addition to $25.00 administrative and processing fees.
- Students with a poor attendance record will not be eligible to request a retake of the course.

In the event a retake request is rejected, Students may repeat BMCC's ACE courses at the current listed price subject to any remaining conditions.

OTHER STUDENT FEES

I. Administrative Fees
Continuing Education students with partial payment agreements are charged a non-refundable student administrative fee of $25.00.

II. Registration Fees
A non-refundable registration fee of $15.00 will be applied to all courses (subject to change).

III. Replacing ID card fee
Students who have lost their BMCC Continuing Education ID card should go to the Bursar's Office for a replacement. A $10.00 fee is charged for replacing lost or missing cards.

IV. Cost and Fees for Transcript
Unofficial transcripts for non-degree programs are issued without charge to all students upon completion of the course. Original Official transcripts will be charged at $20.00.

The standard fee for each additional Official copy is $7.00. These fees are non-refundable.

V. Certificates
Original certificates for non-degree programs are issued without charge to all persons completing certificate programs. Replacement or supplementary copies of your original certificate will be charged a $20.00 non-refundable fee.

VI. Late Payments
All payments are due on the selected due date. If payments are not received by the due date, a non-refundable late fee of $25.00 will be assessed for each missed payment. It is the student's responsibility to inform BMCC Continuing Education Bursar's Office should you have difficulty in meeting your tuition obligation, so that special arrangements and adjustments to your partial agreement can be made in writing. The partial payment plan must be agreed upon by all parties.

COLLEGE RULES AND REGULATIONS

All participants of BMCC Center for Continuing Education and Workforce Development program must follow the College's rules and regulations. The college reserves the right to change or modify its regulations, curriculum, courses, tuition, fees, or any aspect of its programs, policies, and procedures. This can include, but is not limited to, class schedules, substitute instructors, and class cancellation, at its discretion.

For updated policies, please visit our website and click on "Policies" located on the bottom of the page or call (212) 346-8410.

TUITION PAYMENT OPTIONS

BMCC Adult Continuing Education strives to provide you with flexible payment plans, so your focus remains on obtaining the education and career training you deserve.

Split Fees/Installment Payments

Students will be eligible for the following partial payment plans for specific tuition courses that are **$1,000** and up:

- For selective Technology and Allied Health courses, students will be required to pay 70% of the course fee by the first day of class, with the balance due before the course reaches the mid-point;
- For Medical Assistant (MAS) and Hemodialysis courses, students will be required to pay 65% of the course fee by the first day of class, with the balance due before the course reaches the mid-point;
- All other courses not mentioned above with a tuition of $1,000 and up will require a deposit of 70%.

Learners will be charged a $25 administrative fee for choosing a split fee/installment payment option.

For more information contact the Bursar's office at (212) 346-8433 or ex. 8423.

In addition to the tuition payment plan, there are several other payment options available to BMCC's Continuing Education students, such as:

- Corporate Tuition Reimbursement / Vouchers
- DC 37 Members
- Helena Rubenstein Scholarship
- My Career Advancement Account (MyCAA)
- NYS & CSEA Partnership for Education & Training
- Workforce1 Individual Training Grant (ITG Vouchers)
- New York Community Trust Scholarship

For more information visit www.bmcc.cuny.edu/ce and click on Tuition Options.

New York Community Trust Scholarship

CUNY Borough of Manhattan Community College was awarded $700k made available by New York Community Trust Fund that will establish and implement the integration of comprehensive services and scholarships to support and better prepare under/unemployed New Yorkers in high demand sectors.

BMCC's Allied Health & IT HUBB

is sponsored by an 18 month NY Community Trust grant award to provide supportive services to Adult Continuing Education learners to help guide and promote student achievement of success.

A holistic team will provide case management, academic advisement and career services for 225 scholarship recipients to help ensure that sponsored trainees complete training programs leading to job opportunities.

The recipient will train in specified industry sector-based trainings through guided academic and career pathways with skill building competencies, opportunity to obtain national industry certifications, earned credits (if applicable), career readiness and employment assistance.

The HUBB initiatives seek to support students by providing:

- Scholarships
- Education case management
- Paying for professional certifications
- Paid internships for some tracks
- Job placement counseling
- Possible linkages to employment

Case Management and Readiness Success Module

This module is mandatory for Scholarship recipients. The scholarship award is contingent on the student meeting criteria for attendance and participation in scheduled case management sessions and career readiness workshops leading to externship/employment opportunities.

Scholarship recipients will be awarded 80% tuition costs and are responsible for the remaining 20%.

Training Programs:

- Hemodialysis
- CompTIA A+
- CISCO CCNA Training Part 1
- CISCO CCNA Training Part 2
- Medical Billing & Coding
- Central Sterile Processing Program*

Start date for these courses are pending enrollment.

Next step: Register and attend an information session.

Eligibility: Applicants must meet the following criteria:

- Be over 18 years old
- Demonstrate financial need – Income less than $35K
- Live in the tri-state area
- Be legally authorized to work in the United States of America
- Must be accepted into the continuing education training program
- Must pass the screening process to be eligible for Limited HUBB Scholarships
- Must accept the conditions of participation into the Case Management, Academic Advisement and Career Readiness Module
- Must pass Grade 8th level TABE Reading Test

** Subject to Change*
