Paid apprenticeships with  
benefits, preparing you for  
full-time work.

***Professional Skills:***

Develop in-demand skills:  
critical thinking, teamwork,  
communication, and technology.

## What Is a NYS Registered Apprenticeship Program?

A registered apprenticeship program is the process of learning a skilled trade through a combination of on-the-job training and related classroom instruction approved by the state. Apprentices are full time employees, who operate under the close supervision of a skilled worker on the job and take classroom instruction at night or on weekends. The length of training varies and for BMCC it's a one year program or 2,000 hours. Apprenticeships can also enable practitioners (job seekers) to gain a certification to practice in a regulated occupation. Most of their training is done while working for an employer who helps the apprentices learn their trade or profession, in exchange for their continued labor for an agreed period after they have achieved measurable competencies. Apprenticeship lengths vary significantly across sectors, professions, roles and cultures. At BMCC Adult Continuing Education and Workforce Development, we're committed to help career seekers earn and learn at the same time to achieve sustainability in growing fields and sectors. At the end of the program, apprentices not only have earned a fair wage, but have also received stackable credits towards their 2 year degree at BMCC. Apprenticeships have been utilized to meet the needs of America's skilled workforce for more than 80 years and we invite both job seekers and industry to come together to join our efforts.

## Apprenticeship Programs: Earn and Learn

BMCC's apprenticeship programs are unique, flexible instruction programs combining job related credit courses with structured on-the-job learning experiences. An apprenticeship is first and foremost a job and comes with substantial training and the development of transferable skills, which is beneficial to the employer and the employee. The goal for our apprenticeship programs is to provide workers with advanced skill sets that meet the specific needs of employers.

## The Apprenticeship Program Is Ideal for:

**Driven Learners:** Students who demonstrate strong analytical, communication, and collaboration skills, excellent problem-solving abilities, and a drive to learn.

**Ambitious Students:** Meeting minimum credit and GPA requirements, with a plan to graduate by the end of the apprenticeship.

**Future Leaders:** Looking to work full-time after apprenticeship.

## Our Commitment

**Diverse Talent:** Open to students of all backgrounds, prioritizing low-income and students of color.

**Professional Networks:** Cultivate connections that open doors in technical and business fields. Apprentices can expect coaching and support of dedicated faculty.

## The BMCC Advantage

**Real-World Impact:** Work part-time, create a portfolio, and potentially start your career in finance.

**Academic Excellence:** Meet weekly with professors to achieve your learning objectives.

**Supportive Pathway:** Get guidance on financial aid and the opportunity to study part-time.

**Leap Towards Success:** Your journey from student to professional starts here!
