

Logging into Legacy RFCUNY.org

The legacy system is now an archive of activities that occurred on and before December 31, 2025. The login feature has changed. Instead of seeing a space for username and password near the Login button, you only see the yellow login button, as shown at right.

Once you click on the yellow login button, you'll be taken to a screen with the Microsoft logo, titled **Pick an Account**, as shown below. To use the legacy RFCUNY system, you must use your college email account, not your new RFCUNY.org account.

 Microsoft

Signed in
-  Use another account

Remember, your college email account is linked to the Legacy (old) RFCUNY system, while your new RFCUNY email account is linked to the OneRF system.

From there, you may be asked to download and use the Microsoft Authenticator App on your mobile phone. You'll be given a QR code to view through your camera phone. Select the URL provided and follow instructions.

If you cannot scan the QR code, select, **Can't scan the QR code?**

That takes you to a page that offers two options. If you already have an Authenticator app on your mobile device, you may be able to enter the code to proceed.

If not, copy & paste or retype the URL into your browser.

Follow the instructions provided.
