Congrats to all of you. May you make this world a better place in the future.

Good on you. All of you. It takes character to persevere through the sort of resistance you overcame this semester. That character will serve you well as you take your next steps. I couldn't be prouder of you all.

Alexander D. Carney

Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

Professor Nair

Let us consider one another so as to incite to Love and fine works as we move on to where ever life leads us.

Professor Francisca Campos

Congratulations to each and every graduate in the Class of 2020 especially the ASAP students who never cease to amaze me with their ability to finish what they have started. This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tolls that you acquired while in the ASAP Program. (Set a goal, Create a plan, and Execute it) Success will be yours as long as you are willing to be uncomfortable even when you don't feel like it. I am proud of you all YOU DID IT!

Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

This is the beginning of the next step in your life. Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tools that you acquired while in the ASAP Program. (Set a goal, Create a plan, and Execute it) Success will be yours as long as you are willing to be uncomfortable even when you don't feel like it. I am proud of you all YOU DID IT!

In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tolls that you acquired while in the ASAP Program. This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tools that you acquired while in the ASAP Program. Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

Congratulations to each and every graduate in the Class of 2020 especially the ASAP students who never cease to amaze me with their ability to finish what they have started. This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tolls that you acquired while in the ASAP Program. (Set a goal, Create a plan, and Execute it) Success will be yours as long as you are willing to be uncomfortable even when you don't feel like it. I am proud of you all YOU DID IT!

Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tolls that you acquired while in the ASAP Program. (Set a goal, Create a plan, and Execute it) Success will be yours as long as you are willing to be uncomfortable even when you don't feel like it. I am proud of you all YOU DID IT!

This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tolls that you acquired while in the ASAP Program. Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tolls that you acquired while in the ASAP Program. (Set a goal, Create a plan, and Execute it) Success will be yours as long as you are willing to be uncomfortable even when you don't feel like it. I am proud of you all YOU DID IT!

In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tools that you acquired while in the ASAP Program. (Set a goal, Create a plan, and Execute it) Success will be yours as long as you are willing to be uncomfortable even when you don't feel like it. I am proud of you all YOU DID IT!

Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tolls that you acquired while in the ASAP Program. Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

This is the beginning of the next step in your life. Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tolls that you acquired while in the ASAP Program. (Set a goal, Create a plan, and Execute it) Success will be yours as long as you are willing to be uncomfortable even when you don't feel like it. I am proud of you all YOU DID IT!

Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

Congratulations to each and every graduate in the Class of 2020 especially the ASAP students who never cease to amaze me with their ability to finish what they have started. This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tools that you acquired while in the ASAP Program. (Set a goal, Create a plan, and Execute it) Success will be yours as long as you are willing to be uncomfortable even when you don't feel like it. I am proud of you all YOU DID IT!

This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tolls that you acquired while in the ASAP Program. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. This is the beginning of the next step in your life. The next hurdle I can promise you, will be more challenging than this one so be prepared to pull out everything in your tool kit, especially the master tolls that you acquired while in the ASAP Program. Life has taken a twist for all of us. During these days of the Pandemic but "YOU DID IT" despite the barriers and challenges you faced. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. It was my pleasure to have you as a student. Keep in mind always "That Degree you have on your belt, is the single thing in life that no one can take away from you." Good luck and make us proud.

In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds. So at this time, as you climb up that ladder and go the next step, I wish you all the best and may whatever goals you choose going forward that you accomplish those. In life you will always face those and you know what: "It is just a Blip on the Road" because you are Headstrong and determined to succeed no matter the Odds.
