Transfer Rates to Non-CUNY Colleges: 2015-2016 BMCC Graduates

# Glossary of Terms and Definitions

# Enrollment, Retention, and Completion Report 2019

Office of Institutional Effectiveness and Analytics

# Introduction

The Enrollment, Retention, and Completion Report is an annual report that tracks the progress of new and continuing students. Included are historical data on enrollment, retention, graduation, transfer/transfer-out, credit accumulation, college-level proficiency, and course completion. The purpose of the report is to provide information on various indicators of student success. The use of multiple cohorts allows for comparisons of previous semesters and a method of tracking continued student progress. From the data provided in the report, it is the intention of the Office of Institutional Effectiveness and Analytics that academic and administrative units are able to use the information to inform policy and other decision-making processes.

# **Enrollment**

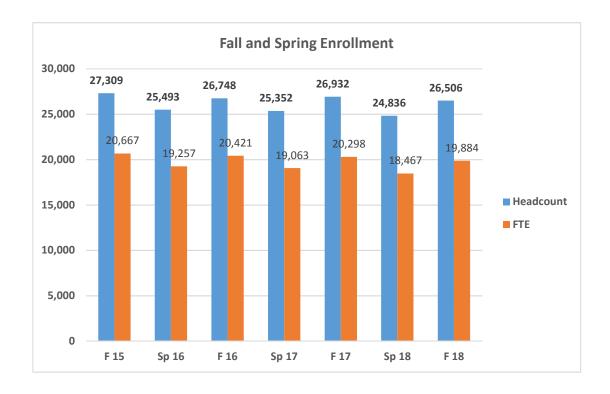

Since fall 2014, enrollment at the college has been above 26,000, with FTEs over 20,000 in fall 2015, 2016, and 2017. In fall 2018, BMCC had the lowest fall enrollment since 2014. While the college accepts new students every spring, spring enrollment tends to be at least 1,000 students lower. The largest drop recently was from fall 2017 to spring 2018 when the college enrollment declined by over 2,000 students.

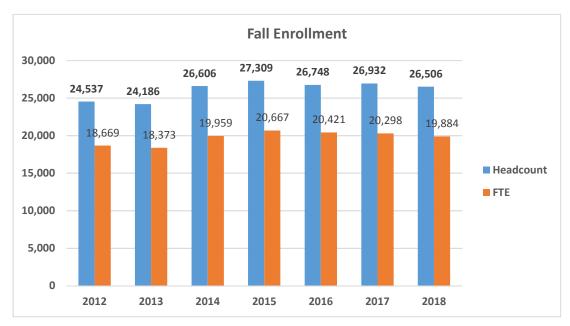

Summer enrollment grew rapidly with the expansion of tuition waiver programs for summer 2015 and the expansion of course offerings including 7-week laboratory science classes. Winter enrollment has also grown steadily.

The majority of BMCC students are female, constituting 57%-58% of the campus population. In terms of ethnicity, BMCC's students are mostly Hispanic and Black. However, among the incoming freshmen in fall 2018, there was a larger proportion of Hispanic and smaller portion of Asian and White students than found in the overall population.

In fall 2018, CUNY introduced a new application and admissions process. The number of majors available at BMCC grew from 42 in 2016 to 46 by fall 2018. The largest growth is in the new Psychology major, which quickly moved into the top 10 majors after its debut in 2016.

# **Enrollment Patterns**

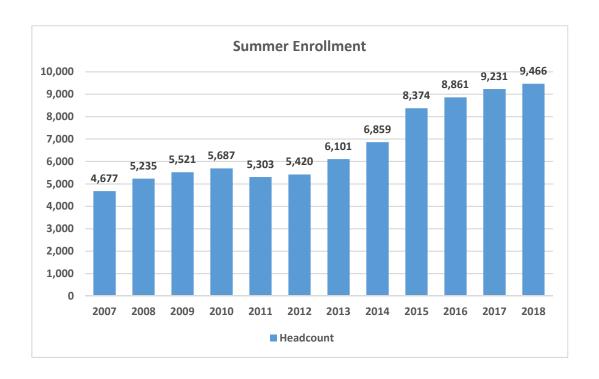

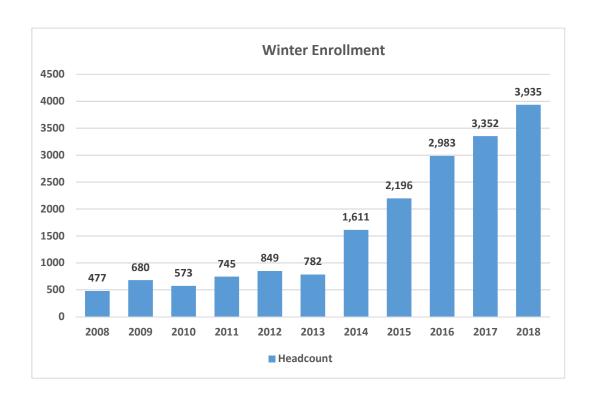

Headcount enrollment consists of degree and non-degree students.

Full-time Equivalent (FTE) is a standardized measure of enrollment equal to a full-time load of credits/equated credits and hours. It is calculated by summing the total credits and hours associated with course enrollment and dividing by 15.

# **Enrollment Patterns**

# **Enrollment by Gender and Admission Type**

**Table 1: Fall Term Enrollment by Gender** 

Gender	2015	2016	2017	2018
Female	15,699	15,317	15,493	15,273
Male	11,610	11,431	11,439	11,233

2018	6858	3452	50.3%	3406	49.7%

<sup>&</sup>quot;Continuing Total" refers to students that are not First-time in the term.

# **Developmental Placement and Outcomes**

There has been a sharp decline in math developmental placement, and a smaller decline in reading and writing, among the fall 2017 BMCC first-time freshmen cohort compared to past cohorts (52% in fall 2017 compared to 74% in fall 2016). Fall 2017 was the first fall term the ACCUPLACER placement tests were used for math and reading. Policy changes at the same time allowed students to re-take the placement tests almost immediately, rather than making students enroll in 20 hours of intervention before being allow to retest. The ACT-COMPASS placement tests had been used with previous fall cohorts prior to the fall 2017.

# **Developmental Need and Proficiency: First-Time Freshmen**

Table 1: Developmental Placement: All First-Time Freshmen

Remedial Course			Fall Se	mester		
Exemptions/Remedial Need	20	)15	20	16	20	)17
	N	%	N	%	N	%
Total	6812		6580		6324

At least one remediation Need	5538	81.3%	5195	79.0%	3855	61.0%

<sup>&</sup>quot;Need", "Pass: and "Exempt" are based on placement test scores and exemptions in CUNYfirst as of October 1st in the first fall term.

Table 2: 1-Year Proficiency: All First-Time Freshmen

		Fall Semester						
<b>Developmental Need</b>		2016		2017				
	N	N Prof	% Prof	N	N Prof	% Prof		
Needs Math	4896	1848	37.7%	3293	1137	34.5%		
Needs Reading	1144	611	53.4%	946	486	51.4%		
Needs Writing	1523	756	49.6%	1359	643	47.3%		

<sup>&</sup>quot;N" refers to the number of students with in developmental need (see: "N" from Table 1).

Math proficient is defined as Math Need students who have passed MAT 12/14/41/51, MAT 150.5, MAT 56.5, or MAT 161.5, or who have taken MAT 56 or higher prior to their second fall term.

Reading proficient is defined as Reading Need students who have passed ACR 95/96, CRT 100.5, or who have taken CRT 100/ENG 101 or higher prior to their second fall term.

Writing proficient is defined as Writing Need students who have passed ESL 95/96, ENG 95/96, ENG 100.5, CRT 100.6, or have taken CRT 100/ENG 101 or higher prior to their second fall term.

<sup>&</sup>quot;N Prof" refers to the number of students proficient in the indicated subject prior to their second fall term.

<sup>%</sup> Prof is calculated as "N Prof" / "N".

# **Retention and Progress**

The standard metric for retention is the fall-to-fall (one year) retention of first-time full-time freshmen. In this report we present more options to dive deeper into student retention and progress. One report shows the semester-by-semester attrition of students through the third spring, along with the rate of the same group that graduated either at BMCC or another CUNY school within three years as well as those who transferred out to another CUNY and are enrolled there.

BMCC's retention rate of new freshmen to the next fall dropped significantly in fall 2017. Part-time students generally have lower rates of retention, but part-time students comprise a smaller proportion of new freshmen anywhere from 10% to 20%.

We also looked specifically at retention rates for students who have not succeeded in at least one class, earning a D or failing grade, or who withdrew from a class or took an incomplete. These students show somewhat lower retention rates in every category.

To help the college address potential issues of equity, we have also broken down retention rates by gender and ethnicity.

Among students retained at BMCC we also present data on the number of students who progress to sophomore status, with 30 or more credits earned.

# Retention: First-time Freshmen Full/Part-time

Fall 2017	855	100%	52.9%	36.8%					

The % refers to the percentage of students returning to BMCC (next year college ID = 12) during the specified semester.

Graduation and transfer out rates were calculated from IRDB CUNY wide Year Outcome

Full-Time and Part-Time status are defined at the start of the first fall semester.

# **Outcomes by Majors**

In this section we look at some of the previous metrics broken out by academic program or major. Since students often change majors, we look not just at retention in BMCC of students who started out in a particular major, but also in their retention in that major or department and for the largest majors, we look at the most common transfers to other majors at BMCC.

We look at one- and two-year credit accumulation for new students in each major. BMCC has a large number of majors, some of which are quite small. There are 11 majors that had fewer than 50 new full-time freshmen fall 2015. Graduation rates for these smaller majors are likely to be more variable from year to year.

# **Graduates and Transfers**

This section looks at the graduation rates and the degrees earned at BMCC as well as transfers to four-year colleges both in CUNY and outside of CUNY.

Overall three-year graduation rates have gradually improved through the fall 2015 cohort. Students in special programs have higher graduation rates than other students and they comprised about 21% of the freshmen population in fall 2015, and 26% of the freshmen full-time population.

Total	1974	61.0%	2232	65.0%	2377	63.3%	2454	59.8%

N refers to number of students who transferred a CUNY Baccalaureate Program within 18 months following the start of their graduation term.

<sup>&</sup>quot;% of Total" is the % of BMCC graduates in the academic year who transferred to that college.

# Transfer to Non-CUNY Colleges: 2016-2017 BMCC Graduates

Transfer College	Transfer N
New York University	25
Long Island University	18
SUNY University At Buffalo	12
Mercy College	12
SUNY Fashion Institute Of Technology	12
SUNY Empire State College	10
Columbia University	10
SUNY Binghamton	7
Touro College	6
SUNY Stony Brook University	6
Saint John's University	5
All Other State of New York (SUNY) Colleges	24
All Other Colleges	133
Total	256

Included are students who graduated from BMCC in 2016-2017 and transferred to a non-CUNY college within 18 months of the start of their graduation term.

Only transfers to 4-year institutions are included; there were 11 students transferring to 2 year college. Only colleges with 5 or more transfers are individually noted.

2016-2017 BMCC graduates enrolled in a total of 112 different non-CUNY colleges within one academic year following graduation. State University of New York (SUNY) colleges accounted for 19 of the 112 non-CUNY transfer college total.

# **Glossary of Definitions**

# Admission Type

The admission type is used to categorize each application submitted by an applicant. The categories generally reflect the applicant's previous educational experience (New Freshmen, Readmit, Continuing, Non-Degree) and/or basis of transfer admission (e.g. last institution attended was a CUNY Institution, a NYS Private College, etc.).

#### Advanced Standing Transfer

A newly admitted student who transfers from another institution and is given credit for 12 or more credits earned elsewhere.

#### Completion of Developmental Requirements in First Year

Percentage of students in a Fall New Freshmen Full-Time Cohort who had entered BMCC with an initial developmental need identified and who have completed their developmental work by the end of the first year. Only students who had initial developmental needs are considered in computing this rate. The first year includes summer sessions before and after the fall and spring terms.

#### Credit

Recognition of attendance or performance in an instructional activity (course or program) that can be applied by a recipient toward the requirements for a degree, diploma, certificate, or other formal award.

#### Credit course

A course that, if successfully completed, can be applied toward the number of courses required for achieving a degree, diploma, certificate, or other formal award.

#### **DFWI Rate**

The number of students who failed the course (R, F or U), earned a D, D+ or D- grade, officially withdrew (W or WD), stopped attending (WU), received no credit (NC), took an incomplete (INC), or never attended the course (WN) compared to the number officially registered as of census count at the beginning of the semester. DFWI for non-credit remedial or developmental courses assumes all grade outcomes except for "S".

### Developmental Placement

Based on placement exams or exemptions, the developmental placement indicates one of three subject areas where the students is considered to have developmental need. These areas are Math, Reading, and Writing.

#### Equated credits

Weekly instructional units (hours) assigned for courses considered to be below college level. Equated credits along with credits are used to calculate full-time status for students, and are included in the student FTE calculation.

### Ethnicity (Group 1 Categories)

Ethnic category imputed by CUNY for BMCC students and graduates as of the given term. International students and nonresident aliens are not separated. Ethnicity should always be reported in the aggregate.

# First-time Freshman

A student attending any institution for the first time at the undergraduate level. Includes students enrolled in the fall term who attended college for the first time in the prior summer term. Also includes students who entered with advanced standing (college credits earned before graduation from high school).

### Full-time student (undergraduate)

A student enrolled for 12 or more semester credits or equated credits a week each fall or spring term. Qualifies as full-time for financial aid.

#### **Graduation Rates**

Graduation Rates are based on the percent of New Freshmen enrolled in the specified fall semester who obtained a degree either at BMCC or another CUNY College within a specified number of years. Only the highest degree earned is counted. Unless specified, this includes students who started as either full- or part-time students. Typically all degree levels are included in the rate. When only Bachelor's Degrees are counted, this is specified and the number of years is the count of years since the initial New Freshmen term enrolled.

## Major

The major is the field of study the student has chosen to pursue. BMCC degree-seeking students must declare a major. Non-degree students show a major of non-Degree.

# One-Year Retention Rate (Fall to Fall)

The rate at which new students in a fall [New Freshmen] cohort return to BMCC the following fall. If not specified, the rate includes all new

freshmen from the fall term. Otherwise the rate needs to be specified for full-time or part-time attendance in that first fall.

# Part-time student (undergraduate)

A student enrolled for fewer than 12 credits or equated credits per semester.

#### Pass Rate

The number of students who passed the course compared to the number enrolled as of census count at the beginning of the semester. Passing for non-credit remedial or developmental courses means earning a grade of "S" and passing in credit courses means earning any grade above "F." Grading Policies: http://www.bmcc.cuny.edu/academics/page.jsp?pid=1060&n=Grading%20Policies

#### Permits-in

Credits earned by students whose primary enrollment is at another institution.

#### Retention Rates

Retention Rates are based on the percent of freshmen enrolled in the fall semester who are still enrolled at BMCC at a stated number of years, among all in that cohort who have not yet graduated.

#### Sophomore

A student who has completed the equivalent of one year of undergraduate work; that is, at least 30 Credits.

## Spring Retention

New student enrolled in the fall semester re-enrolls at BMCC in the following spring semester.

#### Student FTE

Full-time equivalent (FTE) is a standardized measure of enrollment equal to a full-time load of credits/equated credits and hours. It is calculated by summing the total credits and hours associated with course enrollment and dividing by 15 (an ideal full-time student would take 15 credit/equated credit hours per semester).

# Three-Year Graduation Rate (CUNY)

Percentage of New Freshmen from a given fall entry term who obtain a degree or certificate from BMCC, or from another college in the CUNY system after transferring. Only the highest degree earned is counted. If not specified, the rate refers to all students in the new freshman cohort. Otherwise it needs to specify full-time or part-time enrollment for the first fall term.

## Total Headcount Enrollment

Total number of students enrolled in a particular semester; includes degree and non-degree students.

#### Transfer Rate for Graduates

The number of BMCC graduates within an academic year who transfer to a CUNY 4 year college within 18 months after the start of their graduation term, as a percentage of all BMCC graduates in that academic year.

#### Transfer-out

A student who enrolls in another college without first graduating from BMCC.

# Year 1 Credit Accumulation

Numbers of credits earned in 1 year among first-time freshmen who are retained at the start of their second year.

# Year 2 Credit Accumulation

Numbers of credits earned in 2 academic years among first-time freshmen who are retained at the start of their third year.
